

# **BMW R1200 GS / R1200 GS ADVENTURE (2010)**

**RACING & EVOLUTION STREET LEGAL EXHAUST SYSTEM**

Akrapovic Racing and Evolution systems are designed for riders who demand maximum performance from their motorcycle. Both systems are significantly lighter, if compared to the stock exhaust system and feature exceptional production quality, hi-tech materials and of course increased engine performance combined with pure racing sound output. The Akrapovic Racing and Evolution systems were developed to maximize the potential of the R1200GS. The Evolution

system is made entirely of our exclusive high grade titanium while the Racing system uses stainless steel header tubes and link pipe. The muffler outer sleeve is always made of titanium. Both systems are not street legal and are designed for racing purpose only.

\*Please note: Performance and technical data are not yet available.
