SLIP-ON STREET LEGAL EXHAUST SYSTEM

DESCRIPTION

Our sporty and lightweight SLIP-ON STREET LEGAL systems offer a great balance between price and performance and represent the first step in the exhaust system tuning process. The change will also be visual as our HEXAGONAL muffler perfectly fit the exterior line of the Multistrada and add a clean racing image. The striking muffler with titanium muffler outer sleeve and carbon fiber outlet cap perfectly complements the lines of the bike. The Slip-On system is legal for street use.

PERFORMANCE

Measurements of the Akrapovic SLIP-ON STREET LEGAL system on the Ducati Multistrada:

Power & Torque: the exhaust system modification with the SLIP-ON STREET LEGAL system results in a major boost in performance, delivering a massive 140.8 HP at 9270 rpm on back wheel. But the increased power isn't available just at the top of the range; the system shows its quality already from 2000 rpm up through entire rpm range. Max. increased power between the Akrapovic and the stock system is 1 HP at 9270 rpm. Besides this, the torque is substantially higher in a lower rpm area at 7000 rpm and from that area towards high rpm area.
