SLIP-ON STREET LEGAL EXHAUST SYSTEM

Our sporty and lightweight Slip-on exhaust system offer a great balance between price and performance and represent the first step in the exhaust system tuning process. The change will be also visual as our Hexagonal muffler adds a clean racing image to the sport-touring Honda. The muffler outer sleeve is made of titanium or carbon-fiber, which gives a special hi-tech touch to our Slip-on system. We offer street legal system with valve.

## PERFORMANCE

Measurements of the Akrapovic SLIP-ON exhaust system on the HONDA VFR1200F (without muffler insert):

Power & Torque: the exhaust system modification with the SLIP-ON system results in a major boost in performance, delivering a massive 161.2 HP at 10100 rpm on back wheel. But the increased power isn't available just at the top of the range; the system shows its quality already from 3000 rpm up through entire rpm range. Max. increased power between the Akrapovic and the stock system is 5.5 HP at 9700 rpm. Besides this, the torque is substantially higher in a lower rpm area at 2500 rpm and from middle to high rpm area.
