

Racing Line (Titanium)

The Akrapovič Racing system is designed for riders who demand maximum performance. Racing system is significantly lighter if compared to stock exhaust system and features exceptional production quality, hi-tech materials and of course increased engine performance combined with pure racing sound output. The Akrapovič Racing system was developed to complement the racing character of the Yamaha WR450F. Racing system uses stainless steel header tubes and link pipe. We offer titanium muffler outer sleeve. The muffler includes an approved spark arrester. The header pipe features an additional chamber for a better response at lower rpm and for more top end power. System is designed for racing purpose only.
